TO: Mr. Richard Helms  
FROM: [ ]  
RE: MGKA-11378 (Attached)

The first paragraph of attached memo gives us an indication of the extraordinary scope and range of this plan. The fact that the presentation of the 66 attachments are not yet available to us mitigates against any very useful comment from the persons concerned here. I believe that the interested staffs should be informed of this undertaking as the information comes in. You may wish, however, to withhold further circulation of this memorandum until we receive the basic information. Therefore, I have left further routing to you. Perhaps the more efficient scheme would be to acquaint only [ ]

[ ] with the matter and allow him to carry on in the field.
